

LAKEVIEW *wine co*

Our award winning quality wines are exported around the world.

We are seeking to grow our business for our **Lakeview Wine Co.** brand of products with ambitions to extend sales to our broader portfolio.

We wish to establish an exclusive partnership with an import distributor with strong development opportunities in both the on trade and off trade channels.

Our company is strongly positioned and has the dedicated resources to support the chosen distribution partner to establish a strong and profitable long-term presence in the market.

Introducing

LAKEVIEW *wine co*

A Leading Producer of Premium Canadian Wines

our wines...

Our Lakeview Wine Co. Wines are crafted from 100% Niagara Peninsula grown grapes. Shaped by the natural wonders of the Niagara Escarpment and Niagara Falls, the Niagara Peninsula situated near N43° latitude, provides ideal cool-climate conditions for wine growing. The circulation of off-shore breezes between Lake Ontario and the Niagara Escarpment, moderates seasonal temperatures across the appellation. To produce the outstanding quality

fruit needed to make the perfect Niagara wine, it requires careful attention to details and years of experience given our harsh winters, humid summers and unpredictable shoulder seasons. Lakeview Wine Co. wines are created in partnership with our passionate Niagara grape growers and our talented winemakers.

Lakeview Wine Co. is a leading producer of premium quality and multi award winning Icewine. Strict standards are monitored from vineyard to the bottle to meet our governing regulations. Rules cover grape varieties, harvest procedures and winemaking processes to ensure that the Icewine is certified and meet labeling requirements.

who we are...

Established in 1991, Lakeview Wine Co. has developed a strong reputation for crafting premium Canadian wines. Best known for classic vinifera varietals and traditional blends with created in a new world style reflecting our local terroir. We have a passion to create complex whites and full bodied reds that repeatedly stand up to the quality of wines from other cool climate wine regions around the globe.
